DESIGNER

## PROFILE

Hi! I'm a graphic designer, who wears many hats in my day to day work. Design has changed quite a bit in the time that I've been in this field, but the basic concepts stay the same. My goal is to solve problems and engage viewers/users through great design.

## WORK EXPERIENCES

- 2006-2007 Dallas Observer**  
**Production Designer**  
Designed ads and laid out pages for weekly newspaper. Updated web ads.
- 2010-2015 Dixie Designs**  
**Graphic Designer**  
After free-lancing for various screen-printers around the country I settled in to an on-site position at Dixie Designs. I designed graphics for screen printed garments and output color separations in film for screens.
- 2015-now Bama Graphics**  
**Designer**  
A regular day consists of taking orders, designing proofs, coordinating with clients and staff, scheduling jobs, and ordering supplies. My design workload consists of creating branding and marketing campaign concepts, designing and building websites, designing, coding, and deploying email marketing campaigns, designing digital banner ads, a wide variety of printed material, short videos, social media ads, posts, and social media optimization and management.
